

WE UNDERSTAND OUR CRAFT AND  
ENSURE THE HIGHEST QUALITY  
IMPLEMENTATION FOR EVERY TASK.

# Competence in Mechanical Engineering

PRECISION AND RELIABILITY IN MACHINING,  
WELDING, FORMING, AND ASSEMBLING

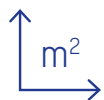

## Your full-service provider in mechanical engineering

Whether machining, welding, forming or assembly: benefit from our manufacturing experience, flexibility, consulting competence, quality, and delivery reliability. We operate internationally without language barriers. This enables us to tap into the entire range of Eastern European manufacturing competence.

### Facts

Established in 2006

3500 m<sup>2</sup> production area

70 employees

## + Stainless steel welding assemblies

Machining stainless steel requires experience and care. In all production steps – from bending to welding – we work accurately, precisely, and repeatably. As a result, our stainless-steel frames and assemblies meet even the highest requirements.

## + Mechanical Engineering Parts Manufacturing

We are your one-stop shop for complete machining technology, including turning and 5-axis milling. Our modern machinery and many years of manufacturing experience guarantee quality, speed, reliability, and cost efficiency.

## + Assembly of components and machines

In the production of assemblies, we manufacture and assemble complete devices and machines according to your individual requirements. The quality assurance for all assemblies is ensured by certified production processes and high-precision measurement technology.
